

The Best Intensive Care for your patients VETARIO V60M

NEW

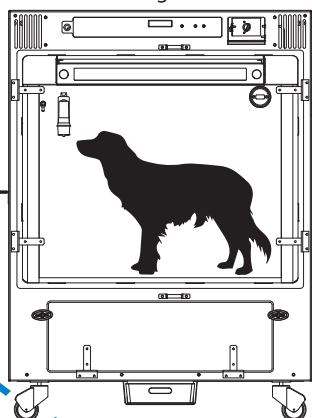

**The NEW affordable,
full-size, stainless steel intensive
care unit from Vetario.**

Vets and nurses tell us that they need a durable, reliable ICU with essential, practical features but that's also simple and easy to use in a busy clinic. The result is the Vetario V60M: practical, effective and tough. The V60M is large enough for a 44lb dog, made of stainless-steel construction, has precise control of temperature and humidity, incorporates active cooling and O₂ & CO₂ control. Crucially, like all Vetario TM models, the V60M is fire-safe for O₂ use.

Overall width 34.6",
effective volume
74.5 gallons

KEY BENEFITS FOR VETERINARIANS AND THEIR PATIENTS

MINIMIZING PATIENT RECOVERY TIME

Using a Vetario ICU enables more efficient patient warming, therefore, **speeding up recovery – saving your busy clinic time and money!**

ENHANCED RECOVERY WITH OXYGEN THERAPY & O₂ DISPLAY

These units feature an oxygen connector for safe operation at elevated oxygen levels, along with an O₂ display for real-time monitoring. This advanced design helps optimize oxygen delivery, **significantly accelerating patient recovery during critical care.**

ENHANCED PATIENT MONITORING

Tough, clear doors with secure latches ensure patient safety while allowing easy observation. Switchable light to **minimize patient disturbance during monitoring.**

SAFETY AND PEACE OF MIND

Advanced control system: includes visual and audible alerts for internal and ambient temperature deviations, **ensuring patient safety.**

COMPREHENSIVE ENVIRONMENTAL CONTROL

Digital display showing real-time temperature, humidity and oxygen levels **for enhanced comfort and recovery.**

EFFORTLESS DRUG ADMINISTRATION

Deliver medication conveniently through the supplied medicine reservoir, compatible with nebulizer pumps available from your Vetario distributor, streamlining treatment protocols.

ACTIVE COOLING FOR SAFETY & COMFORT

Prevents overheating, maintains optimal temperature, and ensures a stable environment **for faster recovery in critical care settings.**

OXYGEN SAFE DESIGN

HYGIENIC & EASY TO CLEAN

Stainless steel construction for easy cleaning and durability **making deep cleaning easy and efficient.**

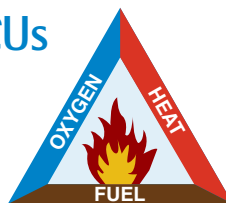

Why choose Vetario?

-  Accurate and adjustable temperature control
-  Oxygen compatibility
-  Easy-to-clean interior
-  No vulnerable edges for animals or birds to chew
-  Tough, clear hinged doors with secure catches
-  Positive pressure with gentle fan ventilation
-  Water reservoir for increasing humidity with external top up
-  Digital temperature control
-  Nebulizer ampule fitting
-  Switchable light
-  Vetario's proven digital temperature and humidity control
-  O₂ read-out to ensure optimum level
-  Active cooling to quickly reduce patient temperature
-  Soda Lime CO₂ extraction system (save up to \$25,000 per year in O₂ cost)
-  31.5" x 23.6" floor, large enough for a 44lb dog
-  Made in Great Britain
-  Easily maintained and serviced
-  3 year warranty

OXYGEN SAFETY IN VETERINARY ICUs

Elevated oxygen levels are crucial for animal recovery but increase fire risk when combined with electronics, fans, or heaters. These units eliminate all potential ignition sources in oxygen-enriched environments, even in single-fault conditions such as leaks or component failures. The V60M intensive care unit meets stringent safety standards and is classified as an RX product under USA FDA guidelines. This ensures veterinarians can safely utilize oxygen therapy without compromising patient or clinic safety.

'Vetario incubators are exceptional for patient recovery, halving recovery time by providing a safe and controlled environment. This not only saves time but also increases efficiency, allowing more patients to recover safely and cost-effectively.'

Sonya Miles, BVSc CertAVP(ZM), CertAqV, MRCVS. RCVS Recognized Advanced Practitioner in Zoological Medicine, WAVMA Certified Aquatic Species Veterinarian

SPECIFICATIONS	V60M
Oxygen compatible	•
Digital temperature control	•
Display choice of °C or °F	•
Digital humidity display	•
Water reservoir bottle for humidity	•
Temperature alarm	•
Room temperature alarm	•
Secondary thermostat	•
LED light	•
Nebulizer fitting	•
Stainless steel and aluminum construction	•
Patient IV line entry points	•
Integrated drip hook stand	•
OLED display	•
Power failure alarm	•
Humidity control with reservoir	•
O ₂ read-out to ensure optimum level	•
Active cooling	•
Soda Lime CO ₂ absorption system with operating hours timer	•
Oxygen concentration display grommet	•
Hand ports	•
Medical grade casters with brakes for convenient portability	•
External Measurements (inches)	
Width	34.6"
Depth	25"
Height	47"
Internal Measurements (inches)	
Width	31.5"
Depth	23.6"
Height	22.7"
Effective volume (gallons)	74.5
Power consumption (Watts) Max	1000W
Typical	700W
Power supply	115v
Weight (lbs)	275.5

In order that we can continue our policy of innovation and improvement we reserve the right to alter specifications without notice.

'I would not be without the Vetario units and they have certainly helped in saving many lives. The practicality makes life much easier and eliminates the concerns I would have had previously regarding thermoregulation.'

Jessie Blyth RVN, APVN (Wildlife)
